

One Stone at
a time

Building
“The Land
Between”
GARDEN
& *Fountain*

WELCOME

The Land Between Garden committee welcomes you today. We thank you for coming to find out about this ambitious project we've undertaken.

We are looking for your involvement, your help to bring this to a reality.

The Land Between
G A R D E N

What's the big idea?

The idea is a dream of Paul Christie's, who is here with us this afternoon.

His vision is for a beautiful area where people can meet, enjoy peace, take wedding photos within the **eight** flower gardens and experience the Power of **Eight**.

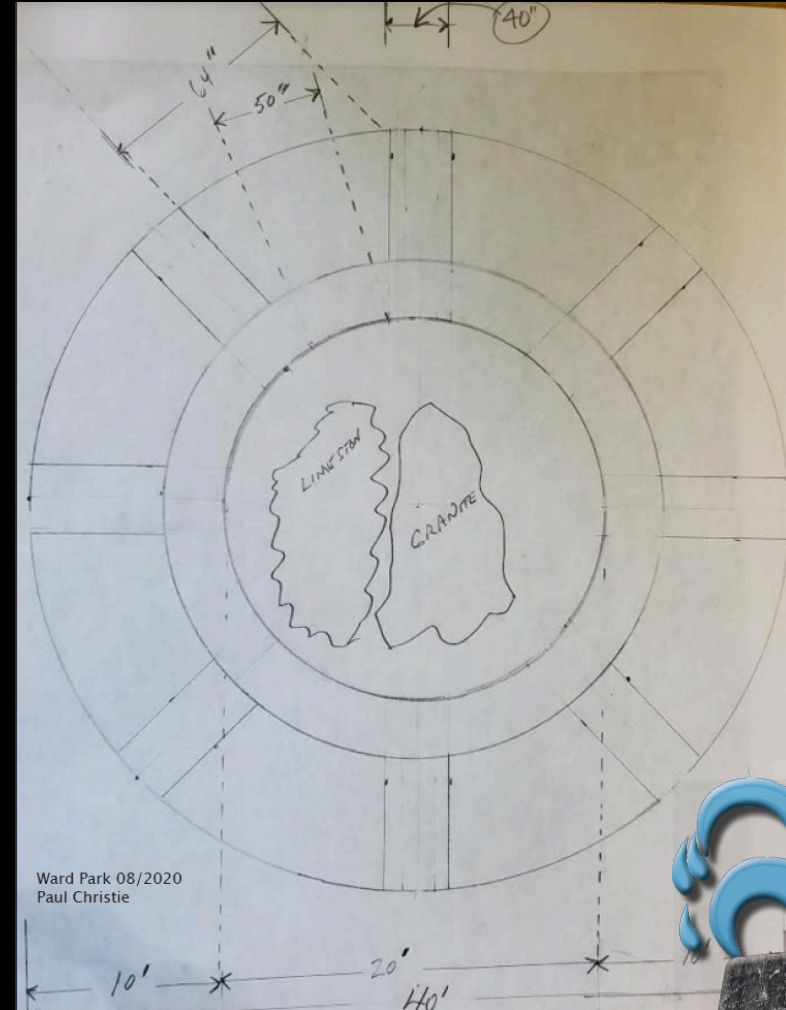

Paul's thoughts...

“Ever since I came to this area I’ve heard a lot about The Land Between and had many comments that we should celebrate this area in some way. As president of the Norland Horticultural Society, I considered a huge garden with walkways throughout.

Then, to represent the convergence of the granite and limestone to represent The Land Between, I wanted to add the fountain, featuring the Granite meeting the Limestone.

This way our small community offers delightful memories to locals and visitors alike.”

GARDEN

Local Volunteers

We are a group of local volunteers dedicated to the realization of this dream garden.

Our **Eight** Committee Members:

Paul Christie, Della Chynoweth, Murray Walker,

Lou Loree, Emmett Yeo, Mark Chadwick, Ross Fogwell,
Miriam Newton.

Bird's Eye view

The diameter of the garden is 40 ft.

The fountain diameter is 20 ft.

Concept plans were developed by Gillian Tate, Florence Design Co.

Elevation plan

The fountain features two rocks, one granite and the other limestone, representing The Land Between. The 20 ft. retaining wall has a constant 2 in. level of water. The continuous flow of water over the two central rocks completes the fountain. The granite and limestone rocks are 3 ft. high sitting on a round 4 ft. high concrete pedestal.

The Garden Plants

Lou Loree, a former master gardener, has created six different designs to choose from for the **eight** gardens.

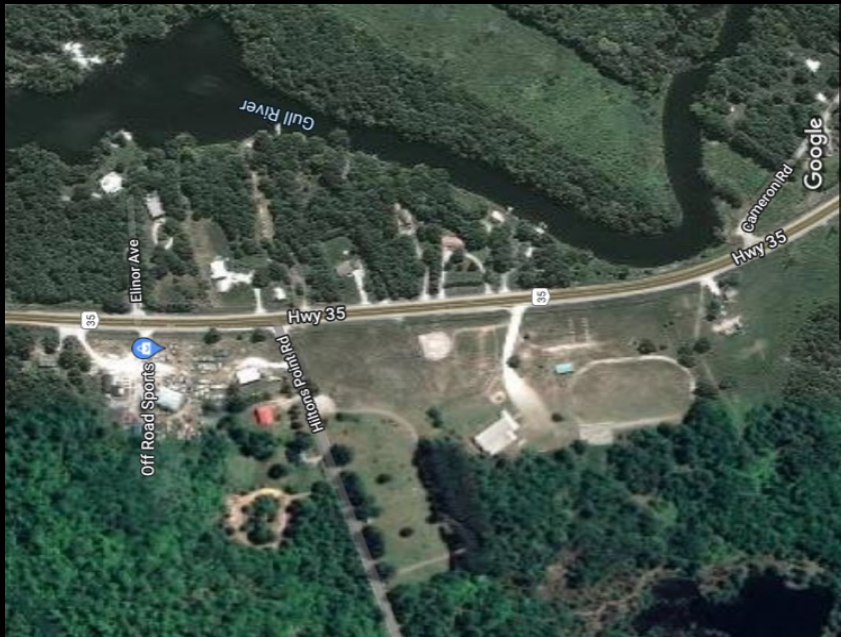

Each design features low maintenance perennial plants and each garden has its own automatic sprinkler system.

The selected design will produce a variety of plants giving a continuous show of splendour.

Ward Memorial Park

The location of the Garden and fountain can be seen from the highway going north and south and is visible within the park. The pavilion is situated close by, for all to access.

Ward Memorial Park

Several events happen every year in the park and everyone can enjoy the Fountain Garden, which is surrounded by **eight** perennial gardens.

We're Celebrating The Land Between

The Land Between was created thousands of years ago when the Granite of the Canadian Shield met the Limestone, formed at the brink of the glacial retreat.

A unique geographic region, it's well known for its rare flora and fauna.

The Garden celebrates where granite meets limestone.

GARDEN

The Power of **Eight**

Legend has it that there is a powerful energy in a grouping of **eight**. In this fountain garden there are **eight** gardens and **eight** pathways that make up the whole experience.

One can enter and exit the garden by **eight** different paths to enjoy this gentle power.

By the way, there are **eight** committee members!

Historical Plaques

Retired pastor Ross Fogwell is spearheading the history of The Land Between.

Four historical plaques will be placed inside the fountain visible to the visitors as they walk around the garden.

The plaques feature 1. A description of The Land Between 2. The aboriginal presence. 3. How the development of settlers and cottagers affected Norland and 4. Points of local interest to be explored.

We need your help

We are looking for your help to build The Land Between Garden. This stunning project featuring a fountain as well as **eight** gardens and **eight** pathways, will be located in the Ward Memorial Park, Norland.

THANK YOU

Tim Hortons.

For providing the refreshments for
today's presentation.

The Land Between
GARDEN

THANK YOU

We cannot do this without you.

Your involvement gives us the tools to complete The Land Between Garden within the year. This is a colossal undertaking, but one that will give Norland a place to enjoy and make memories for years to come.
